PROFESSIONAL SUMMARY

Computer Science student at Zagazig University with a solid foundation in data structures, algorithms, and object-oriented programming built through C++ and ICPC-style competitive programming. Currently developing applied Data Science & AI skills through DEPI (Digital Egypt Pioneers Initiative) and a Data Science & AI training program with GCI – University of Tokyo, alongside a Python-based AI hackathon (Kanz AI). Comfortable using Python for data analysis and scripting, with strong analytical and problem-solving ability. Seeking a Data Science / AI Trainee or Internship role to apply machine-learning fundamentals and algorithmic thinking on real projects.

TECHNICAL SKILLS

- Python (Learning) — data analysis and scripting fundamentals
- Machine Learning & Data Science Fundamentals — applied through DEPI AI & Data Science track hands-on projects
- Data Structures & Algorithms — sorting, searching, recursion, greedy methods, brute-force design
- Object-Oriented Programming (OOP) — encapsulation, inheritance, polymorphism, abstraction
- Problem Solving — logical decomposition, pattern recognition, algorithmic design, competitive programming

TRAINING & EXTRACURRICULAR ACTIVITIES

AI & Data Science Trainee | DEPI – Digital Egypt Pioneers Initiative *In Progress — Exp. Jan/Feb 2027*

- Training on the AI & Data Science track, building applied machine-learning and data-analysis skills through hands-on projects

Data Science & AI Program | GCI – University of Tokyo

- Completed an intensive Data Science & AI training program at the University of Tokyo — certificate pending issuance

AI Training Hackathon — Certificate of Course Participation | Kanz AI (LAU Academy of Continuing Education & Saudi MHRSD) *Jul 2026*

- Completed the AI Training Hackathon and built an original AI-powered working project — Certificate ID: KANZ-ATT-8DF380A617

ICPC Level 0 — Certificate of Completion | ICPC Zagazig University Community *Jan 2026*

- Trained in foundational algorithms — sorting, searching, recursion, greedy methods, and brute-force design
- Solved competitive programming problems in C++ under strict time and memory constraints
- Active member, ICPC Zagazig University Community — certified by Zeyad Zahran, Community Leader

InnovEgypt — Certificate of Acknowledgement | ITIDA / TIEC *2026*

- Built and pitched a startup MVP concept addressing a real-world problem, from idea to business model
- Program sponsored by the Information Technology Industry Development Agency (ITIDA) and TIEC
- Certificate ID: C0537W26T0225 — signed by Dr. Dalia Gamal, Innovation Support Dept. Manager

Guinness World Records™ — Event Participant | Kanz & Saudi Ministry of Human Resources and Social Development *Jul 2026*

- One of 14,075 participants in a Guinness World Records™ event for the most users in an AI video lesson

EDUCATION

Bachelor of Computer Science | Zagazig University *Expected 2029*

- Faculty of Computers & Informatics (or relevant faculty)
- Active member of ICPC Zagazig University Community
